## Under Screen Cleaning Rolls

Surclean offer two standards of Underscreen Cleaning rolls **ECOROLL** and **ULTRAROLL**

**ECOROLL [ER]** are high strength non-woven chemical stabilized material that use minimal amounts of cellulose fibres and unaffected by fluids commonly used in underscreen cleaning tanks.

**ULTRAROLL [SR]** are a high performance clean room, lint free, high strength, hydro-entangled blend of polyester / polypropylene specially converted for Surclean to offer the ultimate performance in underscreen cleaning.

### Surclean Underscreen Cleaning Rolls Feature:

- High tensile strength for maximum resistance to tearing and shredding.
- Very low lint potential
- “Out of paper” end of roll indicator
- Ultra high absorption levels ~ stop solvent wicking and transfer of contaminants
- Superior fabric structure to maximise vacuum permeability and performance
- Individually anti-static packed and labelled
- 68 gram for standard Under Screen Cleaning ~ 41 gram for machines with vacuum USC
